

Uttam Sangani

FRONTEND DEVELOPER

Ahmedabad, Gujarat, India

uttamsangani2@gmail.com

+91 81402 05711

linkedin.com/in/uttamsangani11

Frontend developer who builds clean, fast, responsive websites with HTML, CSS and JavaScript. Before coding full-time I spent 2 years in business development, so I pair solid front-end work with clear client communication — understanding what a business actually needs and shipping sites that deliver it.

Skills

HTML5

Experience

Frontend Developer

NOW

Freelance & personal projects

Design, build and launch real, responsive websites end to end — including a digital visiting card for a real estate consultancy, deployed live on GitHub Pages.

Business Development Executive

2 YEARS

GrabSolve Infotech

Worked with clients daily — handling leads, gathering requirements and building trust. Learned how businesses think and how to translate goals into clear plans.

Selected Projects

SkyShree Realty — Digital Visiting Card

LIVE

HTML · CSS · JavaScript · GitHub Pages

- One-tap call, save-contact and WhatsApp share from a single link
- Property sections, gallery, brochures and an inquiry form
- Fully responsive and deployed free on GitHub Pages

Canva Design Portfolio

ONGOING

Branding · Marketing design

Social media creatives, brochures and brand material that match each client's visual style.
